Key Benefits

Using Swiftwater's BaaS allows teams to focus on core tasks, creating a more efficient and positive work environment.

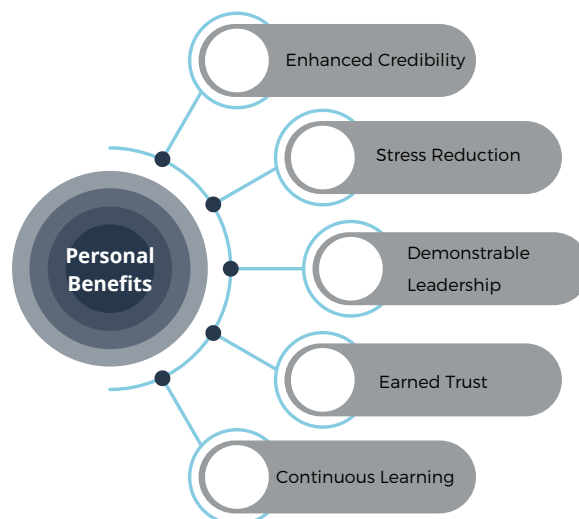

Our seasoned analysts bring immediate expertise to your project, ensuring efficiency from the start.

Swiftwater's analysts utilize our proven, optimized frameworks for efficient, reliable, and best practice-aligned results.

We offer global availability of experts to support your business operations anywhere in the world.

Our experts bring efficient project management tools including document sharing and information collection.

We have industry-specialized experts in areas such as intellectual property, privacy, process improvement, organization design, litigation, transactions, legal technology, compliance management, and risk management, ensuring domain-specific insights.

Subject Matter & Partnerships

At Swiftwater, our global partnerships demonstrate our investment in top-tier solutions. We ensure our clients benefit from the latest innovations and best practices. Our team has extensive experience in legal and risk systems, including Enterprise Legal Management, Document Management, Contract Lifecycle Management, Entity Management, Intellectual Property Management, Cyber Risk Management, Third Party Risk Management, and Vendor Management.

Our expertise extends to robust enterprise systems, encompassing CRMs, ERPs, HRIS, and Enterprise Risk Management solutions.

Success Stories

Case Study #1 A manufacturing client suffering from low employee engagement hired our professionals to create a robust employee engagement program. The experienced Business Analyst worked with Legal and HR to create an exciting employee program bringing voluntary attrition to single digits during the tough transformation year.

Case Study #2 A high-tech client wanted to automate their legal bills and save costs. We provided them with experts in e-billing rules and processes who were also familiar with the tool that was being implemented. Our e-billing experts helped roll-out the system in over 50 countries yielding 20% cost savings.

Case Study #3 A tech company faced challenges with its legal operating model due to an anticipated workload increase, leading to a three-year strategic transformation conducted by our business analysis professionals. This included consolidating vendors, simplifying the technology ecosystem, and negotiating a 5-year contract that saved over \$13M.

Swiftwater is a dynamic company with a roster of experts, which ushered in and embraced the digital and operations revolution.

We are pioneers in legal, risk and compliance strategy, and technology implementations that have helped modernize numerous organizations.
